

Uber Beauty... Men Only

Karen Herzog's oxygen treatments that are offered at Uber Beauty are brilliant for men because the oxygen, essential vitamins and water will penetrate into the tissues and reach the parts which other creams just cannot.

These products provide a male skin with the raw materials necessary for healthy cellular activity, to ensure a vibrant, young, glowing complexion. Not only that, but the oxygen and vitamins that are delivered into the dermis will eliminate razor burn, reduce scar tissue, reduce in-growing hairs, whilst the oxygen on the surface will sterilise any cuts caused by shaving and accelerate the healing process.

Just like female skin, spots/bacteria cannot survive in an oxygenated skin so breakouts and blemishes are also reduced.

Remember the Venus & Mars theory? Well as we all know men and women are made differently. Fortunately for men, one such difference is the thickness of their skin. An average man's skin is twice as thick as that of a woman's.

There are far too many 'male' products on the market that do not have the power to penetrate their skin. If a product just sits on the surface of the skin it acts like an incubator, warmth builds up in the skin and thus becomes a fabulous breeding ground for bacteria which results in spots as the oils build up.

Finally any man using Herzog will find the creams anti-ageing, anti-bacterial, antiseptic, healing, rejuvenating, stimulating, detoxifying, cleansing, balancing and amazing!

With unisex packaging, the retail line is a real winner with the guys.

We recommend the following facials:

- Glycol Rose Peel
(to rejuvenate and soften hardened skin) a 40 minute facial that will give instant results. It is ideal before going out, or when time is short but demands and expectations are high.

(40min) £32.00

- The Pore Draw
(for congested dull skin prone to breakouts) for male skin that needs brightening, refreshing, decongesting and balancing all-in-one. Using lemons and lime essential oils to invigorate and cleanse this treatment stimulates the senses and skin in one fantastically indulgent fresh oxygen facial. Mildly astringent and deeply cleansing, with aromas to awaken and refresh tired minds and spirits. Exfoliation, relaxing massage, manual extraction to clear pores and decongest, all work to ensure you leave the salon with a clearer complexion. This treatment will not only remove blockages and

balance oily, problematic skins, but it will make any complexion feel brighter, deep down refreshed and visibly radiant for hours after leaving the treatment room.

(1hr) £39.50

- The Smoothie

(this is our anti-ageing rejuvenating facial) for those male clients who want to manage the ageing process successfully. Dynamic, digestive fruit enzymes work to remove the dead veil of lack-lustre cells, whilst delivering a deep infusion of oxygen and vitamins which will stimulate, lift and energise tired, dull, exhausted skin.

(1hr) £42.00

- Crystal Clear Microdermabrasion

(for dull lifeless skin) very deep exfoliation to immediately remove dead skin cells and to progressively reduce fine lines and wrinkles. The treatments is followed by either a refreshing and stimulating eye therapy mask; to reduce puffiness and firm the delicate skin around the eye area, or a hydrating, firming, and lifting anti-ageing mask. With the deluxe treatment you can even combine both therapies after your microdermabrasion.

This treatment is our best sought after facial especially with men, as its results driven and the effects are immediate.

(25min)	incl eye therapy treatment	£32.00
(40min)	incl firming, hydrating mask	£42.00
(1hr)	incl anti-ageing mask	£48.00
(1hr15min)	incl mask and eye therapy	£55.00
