

Our regular beauty column... helping YOU to look your best!

LOOK GORGEOUS

With Molly Hanson Steel

Make-up that won't fade or wash away

Molly Hanson Steel provides expert beauty advice for our readers in this regular column. Molly, CertEd BTEC and BABTAC, is a fully qualified lecturer and national trainer, and has her own beauty clinic, Uber Beauty, at 146 London Road, Stockton Heath.

NO longer just for the rich and famous, semi permanent makeup (sometimes called micro-pigmentation or permanent makeup) can be had by all these days.

With advanced technology and hundreds of pigments to choose from, I can create beautiful brows, redefined lips, and everlasting eyeliner, which won't rub or wear off during the day.

I always feel that subtlety is best, adding less rather than more pigment and creating an enhancement rather than a fully

made-up look. However, whatever suites you as the individual, and as everyone is unique, will depend on what

RIGHT: Before the semi-permanent make-up is applied...

the required result will be.

It's so vital to listen to what my clients are telling me, however if I feel that the client is being unrealistic, I always explain the reasons why, since hair and skin tones play such an important part in the final colour stage.

Semi permanent makeup is so versatile, it can be enhancing, defining, subtle, and correcting but most of all it can be anti-ageing by designing symmetry with your features and face shape, or enhancing those brows for an ever-lasting brow lifting. I can

create the effect of a face lift with a few strokes of carefully placed pigment.

If you would like to discover how I utilise the latest techniques and innovations in semi-permanent cosmetics creating a more youthful you, or to see how semi-permanent cosmetics can greatly enhance your features, with our portfolio of before and after shots, please call 01925 261 673 or visit our website www.uber-beauty.com.

● **January offers are available on all Semi Permanent procedures until the end of February 2008.**

LEFT: and the stunning result!
